#### \*Notables

- In 2013, AEC taught two Intermediate to Paramedic Bridge programs. Both of these classes graduated in 2014. This is why there are “0” results in 2013.
- The two Intermediate to Paramedic Bridge classes that graduated in 2014 had all NREMT-I students. As a result, all 28 students were exempt from taking the psychomotor exam, which is why there are “0” attempts in 2014.
- Four graduates were exempt in 2015 from the psychomotor exam for the same reason.
- In 2016, 18 Intermediate to Paramedic Bridge students are exempt from taking the psychomotor exam. One student has failed on the 1<sup>st</sup> attempt, but has not yet retested.
